These five names are the people with a full name in the repository history or the 19 August 2026 minutes. tanmay is named in the minutes with no surname and no commit. Add a row if tanmay is a submitting member. Each person signs the declaration, not this form, unless the course asks for both.

Name	How they appear in the repository
Aushak Anuj Dendukuri	GitHub owner of aushakanuj/education-platform. Platform commits.
Pranit Daggupati	Platform commits. Sponsor feedback at the 19 August review.
Suparna Dhumale	Platform commits. Student 360 view, per the minutes.
Rahul Vamshikanth Gunda	Commits as Rahul G.
Arathe Sankar	Struggle-flag readout and student feedback work, September 2026.

4. Statements the uploading member is making

The person who uploads the single group package confirms, by uploading:

1. This is the one submission for the group.
2. The report PDF and the report DOCX are the same text.
3. The Data Note PDF is one page.
4. The repository link above is the code and analysis for this project, and it matches the report.
5. The declaration has been signed by the submitting members before upload. An unsigned declaration does not meet the LMS line that asks for a signed declaration.
6. The upload contains no API keys, no production passwords, and no records of real pupils. The Al Noor school is synthetic. The demo password demo1234 is a local fixture, documented in the repository README.
