CURIOED · GROUP SUBMISSION · 25 OCTOBER 2026

Pre-upload Checklist

Use this before the single group upload. Due 25 October 2026 at 11:55 PM.

https://github.com/aushakanuj/education-platform

1. About Section 9

The LMS notice says to use the checklist in Section 9 of the Instructions and Best Practices guide, and that Section 1 of that guide gives the format for each item. That guide is not in the CurioEd repository and was not attached to the request to prepare this package. This sheet is the working checklist for the items the notice itself printed. If the guide adds a format rule this sheet does not mention, follow the guide and adjust the file before upload.

2. Files

Check	What to confirm	Status while preparing
Report PDF	01-Final-Project-Report.pdf opens and matches the DOCX.	Prepared
Report DOCX	01-Final-Project-Report.docx is the editable source.	Prepared
Form	02-Assignment-Submission-Form is filled. Course or group number is still blank if the repository never recorded one.	Write the group number
Repository	The link https://github.com/aushakanuj/education-platform opens for the marker.	Confirm access
Data Note	03-Data-Note.pdf is exactly one page.	Check the page count
Declaration	04-Originality-and-Confidentiality-Declaration is signed by each submitting member.	Not signed yet
Plain-language summary	05-Plain-Language-Summary is in the upload.	Prepared
One upload	A single member uploads the whole package once.	Choose the uploader

3. Content checks

- The report's worked example for Aisha Rahman matches the engine test: scores 74, 65, 56, 47, 38, decline 22.5 points, tier urgent on mathematics, attendance separate.
- The Data Note does not call the synthetic school a real cohort.
- No OPENROUTER_API_KEY, no .env file, and no database dump is in the upload.
- The demo password appears only as the documented fixture demo1234.
- Answer keys are not pasted into the report.
- The declaration's drafting-assistance paragraph is still true.
- tanmay is added to the signature block if they are a submitting member.

4. Deadline

The notice says the package is due on 25 October 2026 at 11:55 PM, one submission per group, with late work handled under the course policy. The notice does not print a time zone. The group's meeting minutes use India Standard Time. Upload against the clock the LMS uses, and

write that zone on the form.
